

AFFILIATION AGREEMENT

Indonesia Scientific Society (ISS) is an institution based in Bandung, Indonesia, engaged in science and has collaborated with various world scientific organization which houses two international event, i.e **International Science Technology Engineering Competition (ISTEC)** and **International Research Competition for Young Scientist (IRCYS)**. Projects will be organized every year starting from 2020. Primary school up to High school and College students can participate to it. Projects are evaluated by a judge committee from **Russian Youth Engineering Society** whose members are university academics. After the evaluation, the selected projects are invited to Bandung, Indonesia. You can find detailed information from **ISS's** website (www.iss.or.id).

This agreement consists of making affiliation with **Russian Youth Engineering Society**. We agree that to be your affiliated partner and on behalf of **Indonesia Scientific Society**. **Iwan Budiman, S.Si. M.Pd** as the **Head of Organization**, and will be handled by **Rahadian Sri Pamungkas, S.Si** as **International Relations**. This collaboration includes choosing **ISTEC** or **IRCYS** of **both** from your center. You can send **as many projects as possible**. Also **ISS** can choose projects which participate in to your organization from Indonesia. These projects will be selected by our juries who are experienced about their own subjects. **Russian Youth Engineering Society** can accept not more than **3 projects and 1 adult** to participate in Forum «Step into the Future».

In this concept of affiliation, all participants will cover their own expenses.

Rahadian Sri Pamungkas
